經過多年研究與分析曾參加「社會關愛獎項計劃」的領袖與機構，社會企業研究院制訂了「社會關愛約章架構」。此架構的核心乃基於「社會關愛約章」中的6大原則來繪畫出社會關愛機構應有的發展目標和願景，以及來自政、商、學、民4大界別的領袖應如何負起對環境、社會、和企業管治的領導責任，與各持份者創造共享價值，從而產生持續性的正面影響。

The SCP Framework is a proprietary model developed through years of research and real-life input from social caring leaders and leading organizations. At the heart of this framework is the development of purpose and vision for organizations, supported by agile and responsible leadership at all 4 sectors – Business, Academic, Political and Social, based on the 6 social caring pledge principles, resulting in the creation of shared value among stakeholders and delivery of consistent impact on environmental, social and corporate governance.

### Sir Paul Polman

世界企業永續發展委員會  
會長

## Success is the sum of small efforts

Influencer, business leader, campaigner, Co-Author of “Net Positive: how courageous companies thrive by giving more than they take”, recently published October 2021.

Paul Polman works to accelerate action by business to tackle climate change and inequality. A leading proponent that business should be a force for good, Paul has been described by the Financial Times as “astandout CEO of the past decade”.

As CEO of Unilever (2009-2019), he demonstrated that a long-term, multi-stakeholder model goes hand-in-hand with excellent financial performance. Paul was a member of the UN Secretary General’s High-Level Panel which developed the Sustainable Development Goals and which he continues to champion, working with global organizations and across industry to advance the 2030 development agenda.

Paul’s new book, “Net Positive”, is a call to arms to courageous business leaders, setting out how to build net positive companies which profit by fixing the world’s problems rather than creating them. He Chairs IMAGINE, a social venture dedicated to systems change, and Saïd Business School, and he is Vice-Chair of the UN Global Compact as well as a B Team Leader. Paul is Honorary Chair of the International Chamber of Commerce, which he led for two years.

### 李樂詩博士

極地博物館基金有限公司  
創辦人

## 極地感悟 傳遍社會

李樂詩博士MH，極地科學工作者、女探險家及極地博物館基金創辦人，旨在提倡極地科學研究的重要性。

李博士過去從事專業廣告設計、攝影、畫家、及寫作。自1985年加入中國國家南極考察隊，成為第2次隊赴南極長城站的考察員後，轉而成為極地科學工作者，並以藝術推動極地科學，從科學角度不斷研究探索極地與環保之關係及重要性。這個改變使她成為全球首位踏足地球三極(南極、北極及高極 - 青藏高原)的香港女探險家。至今，她曾前赴南極8次和北極十多次，並於2001年在南極越冬。

李博士在公民教育方面的貢獻令社會得益良多，於環境保護方面亦作出積極的推動力。經過她26年的努力，終於在2013年獲香港賽馬會慈善信託基金會捐助，在香港中文大學校園內設立並命名為「香港賽馬會氣候變化館」並正式開幕，展出她多年來在南、北極和青藏高原、珠穆朗瑪峰雪域所收集的珍貴資料，實物、影片、照片等，向公眾推廣氣候變化，以認識極地冰雪溶解的啟示，對土、農、工、商的影響，以及對其化企業的連鎖關係。她先後出版了十多本有關其探險心路歷程的著作，並製作過有關地球之電視記錄片及舉辦有教育意義的極地展覽。

為推動青少年對極地科學的認識，從而實行環保工作，李博士也經常為公眾及學生作公開講座，分享她的極地探險經歷，並帶領學生到野外考察以推動環保的工作，引領青年們開展環境保護之路，並且讓他們建立正確的人生目標。至今，李博士於中、港、澳三地講座超過數千場次，逾數十多萬名學生出席過其講座，從而得到鼓勵以積極態度面對人生，關注及愛護地球。

李博士曾／現任多項公職，以個人知識貢獻社會，當中包括：香港專業教育學院柴灣分校榮譽顧問、香港康樂及文化事務署(科學)顧問、香港童軍總會青少年活動委員會委員、香港科技協進會會長（2012-3年）、中國科學探險協會常務理事、香港理工大學 和香港中文大學榮譽院士。她也曾獲美國女地理學家協會頒發「金獎」殊榮、「世界傑出華人獎」及「香港傑出領袖獎」，實至名歸。

走過三極後，李博士彷彿時刻聽到它的呼喚。為此，她寫下了「三極宣言」：地球之顛，當屬珠峰，會同北極冰雪，南極大陸——我們人稱「地球三極」。我們三姊妹或高聳雲端，或冰晶玉潔，是地球系統中無可替代的白色力量。我們控制大氣和海洋的運動，調即四季變化和雨雪風霜，從太古洪荒起，我們創造了蔚藍的天空，茂密的森林，清澈的溪流.....

李博士深信：生命影響生命，沒有一個人或者一代人可以超然獨善其身，未來在我們手中，需要有更多有經驗的前輩傳承。我們將以累積的經驗和專業知識，協助與關愛新一代開展機遇與選路。

## 資深院士

## 蘇樺偉資深院士

《神奇小子》殘奧徑賽金牌得主

## 心懷正能量 向前邁進

蘇樺偉資深院士是曾競逐五次殘奧的香港退役田徑運動員，為港贏來12面獎牌。他在廣州出生不久後確診深度黃疸病，當時，負責的醫生詢問是否值得留他一命，得來家人「救」的肯定答案後，他又堅持樺偉定是個終身得受家人照顧的殘疾人士。

蘇樺偉的母親在80年代初期來香港，與其父一起生活。蘇樺偉在香港殘疾人奧委會暨傷殘人士運動會中，被一位潘健侶教練相中，參與田徑訓練，在1994年開啓了他運動員的生涯。訓練需無高强度項目，但帶來的疲倦仍是貨真價實，初期的蘇樺偉，是抗拒的。

蘇樺偉在1996年參加了亞特蘭大殘疾人奧運會，首次於國際舞臺亮相，參加了100米及4x100的項目。初出道的他對比賽的重要性可謂一知半解，也未知此為運動員最高榮譽的比賽，只知道此處可任喝汽水。當時在4x100接力賽負責最後一棒的他，在過往訓練記錄中是速度最慢的一個，因此帶頭的三棒，可謂至關重要。然而，輪到蘇樺偉時，他們的隊伍卻已經落後於其他國代表了。幸好，蘇樺偉還是力挽狂瀾，第一個抵達終點。他表示：那時，是隊友跟他說刻苦訓練，方能開花結果。蘇樺偉在國際舞臺亮相後，在1996-2012年間參與了5次殘疾人奧運會，奪金三面，銀三面，銅三面，獎牌共12面，又在退役前在殘疾人奧委會暨傷殘人士體育協會秘書處擔任行政助理。2014年受腰傷困擾其後，他在2016年結束了長達21年的運動生涯。

在努力訓練中，他在各大個人項目，如100米、200米、400中，均勇奪佳績，大破紀錄。蘇樺偉表示，他希望透過自己的經歷，一方面鼓勵殘疾人士出來運動，另一方面鼓勵健全人士勿輕言放棄，堅信他們定能做到殘疾人士也做到的事。他又言：「放棄雖易，但倘若能堅持到最後，未能得果亦可在過程中學習。我出了本自傳《赤道上的金牌》，還有兩套改編的電影（《12.58》和《媽媽的神奇小子》），盼以此鼓勵和感動香港人，心懷正能量向前邁進！」

曾院士的成功源自於其腳踏實地、默默耕耘的精神。她的格言是：「想得到的東西，不會用僥倖的心態，而是深信默默耕耘，必有成果」，亦處處體現母校「篤信力行」的校訓。

## 探索生命 舞出精彩

張潔婷院士，Maxwell International Holdings Limited 的 Dance Nefertiti 及 Dance For Life 的創辦人。希望更多的社會人士能透過舞蹈找到生命的真蒂，並舉辦運動及舞蹈康復課程為各界市民服務。

作為人類，我們被賦予了多種有趣但尚未完全被理解的能力。雖然科學技術的進步為日常生活創造了更大的便利，但當前的研究一再發現，生活在物質較少的社會中的人是幸福指數要高得多。

像許多孩子一樣，張院士很想知道什麼是“生命”。隨著時間的流逝，儘管人類的智力認知有所增強，但對“生命”的理解似乎仍然停滯不前。此外，當前的教育體系儘管被吹捧為比以往任何時候都更優越，但卻是以剝奪孩子體驗真正與生俱來的快樂的內在能力為代價的。顯然，如果孩子們不斷地被剝奪這些生命賦予的基本情緒，那麼在我們現有的教育體系中，就明顯有一個缺失的環節。幸運的是，張院士的探索精神一直沒有被打退。

作為一名專業的物理治療師，張院士有幸能夠幫助病人恢復健康的身體。但多年臨床經驗令我領悟更多的是，身體上的疾病不能僅靠藥物或物理手段來治愈。由於人類的身體是整個宇宙中最複雜的機器，僅靠技術可能會治愈身體外殼，但並不可能治愈生命！

每個人在內心探索生命旅程時，自然地我們會包容自我以外的人和世界。分享人類努力得來的樂趣，無論是知識、文化、藝術和舞蹈，這是一個自然的過程。張院士深信，通過這種強大的自我蛻變過程，我們的生活將在更深更廣的維度上聯繫起來。我們將共同創造人類存在的新意義，使這個世界成為人間天堂。

### 莫家文院士

環球健體運動培訓學會有限公司  
創辦人

## 薪火相傳 動出健康

莫家文院士，環球健體運動培訓學會有限公司創辦人，貢獻健身行業不遺餘力。

莫院士在2006年與兩名志同道合的教練共同創辦Ricostretch Hong Kong Ltd，並成立「香港伸展運動學會」推廣伸展活動。基於當時「伸展治療」在香港復康市場上屬嶄新技術，故他們積極於不同地區定期舉辦活動，提升坊間對伸展的關注度。數年以來，學會接觸的人次高達數萬人，公司擴展至3間店舖及擁有20多名員工，惟最終因客觀因素無奈結束。

吸取創業經驗後，莫院士在2012年和朋友重振旗鼓，成立了「環球健體運動培訓學會」，以推廣運動及培訓運動教練為主。透過講座及工作坊，向普羅大眾宣揚正確的運動知識。莫院士亦設計及開辦一系列的運動教練課程，廣納賢才，為有意成為運動教練的青年人提供機會。

環球健體運動培訓學會一直秉承「愛健康·品生活」的理念服務社會及提倡健康文化，曾服務之團體遍佈全港，包括教會、老人中心、學校、非牟利機構、上市公司、私人企業及屋苑會所等，服務人數達過萬人。

在莫院士的帶領下，其開辦的運動課程在數年間已培訓了數以百計的教練，服務社會。課程除了注重專業知識外，更強調教練的操守。因此莫院士開創了名為「Global X」的教練行銷課程，著重教授專業運動及正確推銷方法。除了有助學員投入健身行業，更希望改變行內「硬銷售為主，服務為次」的風氣。

宏思腦神經反饋  
創辦人

## 學習實踐 貢獻社會

李偉文先生是 Brain Infinity Center Limited 的創始人。他一直在精神健康領域做出貢獻，致力幫助香港的自閉症孩子。和大多數有自閉症孩子的父母一樣：對孩子各種問題，一直找不到出路；確診為自閉症，也未能了解其病因；多年的主流訓練，困境也沒有改變。

2013 年，李先生偶然聽說了「腦神經反饋」或「腦反饋」。從世界各地家長在網上的分享，得知這訓練或能使自閉症孩子得到非一般的進步。李先生就帶著他 10 歲的兒子飛往新加坡，進行第一次腦反饋評估。不久，看到兒子的改變，便決定投身於精神健康這行業，幫助其他香港自閉症小朋友。

要利用這高端腦反饋，需具備不同學科的知識，李先生憑藉在大學時所培養的科學思維，掌握腦反饋背後不可或缺的數學概念。他也持續進修，獲得利物浦大學精神健康心理學碩士學位。再加上不斷閱讀腦神經科學文獻，由2013年至今，已幫助了不少自閉症小朋友，重拾學習能力，或大大改善其自閉症的特徵；也幫助了找不到出路的家長，提升整個家庭的生活素質。

每個小朋友也是獨一無二，李先生會從不同層面（如環境心理因素），去看每一個小朋友。面對眾多複雜的個案，漸漸地，李先生也成為一個腦反饋的專才。雖然香港缺乏腦反饋，但他一直以能負擔得來的收費提供訓練，在過往幾年，更利用腦反饋幫助了一些缺乏經濟能力的家庭。

### So Wa Wai

**Wonder Boy,  
Paralympic Games Runner  
Gold Medalist**

## Don't Give Up Easily

So Wa Wai BBS MH is a retired athlete from Hong Kong who has competed in the Paralympic Games on five occasions, winning 12 medals. Not long after his birthday in Guang Zhou, he was diagnosed with severe jaundice. The doctor asked his parents whether they should 'save him' or not. 'Save him,' His family demanded. The doctor then insisted he will forever be a disabled under the care of them.

His mum and he came to Hong Kong to live with dad in the early 80s. Scouted by a coach in his school during Hong Kong Para Athletics Championships, Mr. Poon Kin-lui asked him if he was interested to join their training programme, offering him the chance to step into the path of being an athlete in 1994. Although hectic training programmes had never been included in the programme, he didn't enjoy participating in them on that early stage since they tired him out. His first international presence was made on 1996 Summer Paralympics. He participated in 100m and 4 x 100 m metres relay contest without realising how grand and important they were, like how they represented the highest honour for athlete. The only thing he knew is that there are plenty of soft drinks for them.

Mr. So was the last outgoing runner, and since he was the slowest among their team, the first three batons were of the most importance. They had to take the lead. They are actually being caught on by the other countries on his turn, but he turned up to be the first, surprisingly! And when he thinks about it afterwards, it was exactly his mates telling them to work hard and overcome the pain for succeeding and achieving the goals. Training himself with his best efforts, he accomplished great result in individual events including 100 metres, 200 metres and 400 metres relays, breaking their previous records.

After his first presence on the international stage, he participated in 5 Paralympic Games from 1996 to 2012, winning a total of 12 medals with 6 of them being gold, 3 of them being silver and bronze respectively. His back injury sustained since 2014 paved the way of his retirement in 2016. Before that, he worked as administrative officer in the secretary office of Hong Kong Paralympic Committee and Sports Association for the Physically Disabled.

Here he would like to share his experience with people attempting to play in sports, both abled and disabled. "You can do it!" He published

an autobiography Gold Medal on the Equator and two films. He hopes his life could encourage disabled people to take part in sports more, and inspiring Hongkongers with positivity. “Don’t give up easily! It’s easy to just give up, but if you sustain, and yet still fail to achieve anything, you can still learn something from the process!”

**Good Wills HK  
CEO**

---

## Everyone is Entitled to have a Will

---

Good Wills HK is established with one simple motto – that “everyone is entitled to have a Will” and is endeavored to promote this idea to the community in Hong Kong. Since day one, the founder and CEO of the company, Amy Kwan, a Hong Kong and Queensland solicitor, has been striving to shape the company to operate with such motto in mind. On top of the core services provided by Good Wills such as Will writing and consulting, Corporate Social Responsibility (CSR) activities have also been the top priority for Amy, focusing in educating the general public on the usefulness of having a Will in place and to demystify the misconceptions that the general public has towards Will, especially in the Chinese community as it is usually conceived as a “taboo” even when mentioning about it.

To help achieve that, Amy has in the past organized and engaged in numerous talks and seminars, be it face to face with the audience or via social media platforms such as Facebook live and video recordings, delivering information about the specific functions of a Will and the consequences of not having one, free of charge. Face to face talks were given not only to the different corporations in Hong Kong, but also with other community organizations such as to the different church groups around Hong Kong. Besides, even before the pandemic hits, Amy has partnered with numerous non-profit organizations to conduct free live online seminars and Q&A sessions to interact with the online community and spreading the word on the importance of having a Will. The motive is not about getting business for the company but solely towards sharing useful information and clarifying the misunderstandings about Will within the community.

In addition, in order to gain larger traction from the community, Amy was also been invited in numerous media interviews in newspaper, magazines and online articles to discuss about Will. One of the main interviews was a TV program from a well-known broadcast telecommunications company in Hong Kong. When the Covid-19 pandemic hit Hong Kong in early 2020, everyone’s norm had been severely impacted and it has becoming a distress situation for everyone. Understanding the impact of this pandemic to the community, Good Wills had acted swiftly to assist everyone at difficult times like this, by providing a complimentary Emergency Rapid Response Checklist on its website to the public, to help prepare everyone and react to any unforeseen circumstances that could happen to us at any time. The checklist prompted everyone to start thinking about organizing the important aspects of life and making sure that all these have been considered and taken care of, in order to protect themselves and their loved ones. This publicly available checklist has received great response and appreciations from the community even from those who are not the clients of Good Wills. This has once again demonstrated that helping and giving back to the community is one of the main priorities for Amy and Good Wills.

## Dancing Life Lingerling charm

Ms. May K. T. Cheung is the founder of Achilles Physiotherapy Centre, founder and teacher of Dance Nefertiti by Maxwell international holdings limited. The company strives to promote Egyptian Dance culture by conducting classes, international dance shows, workshops and seminars. She is also the founder of Dance For Life, a charitable foundation that aims to provide platforms for everyone to explore life through dance, and to provide dance and exercise therapy for the prevention and rehabilitation of illnesses.

As humans we are endowed with multiple faculties that are both intriguing and yet to be fully understood. While the advancement of science and technology has created greater convenience in daily life, current researches have repeatedly found that people who live in less materialistic societies are far happier.

Like many children, May was curious to find out what “life” was about. Sadly, as time goes by, despite an enhanced intellectual awareness, her understanding of “life” seems to remain stagnant. Further, the current education system, despite being touted as more superior than ever before, has taken away a child’s inherent ability to experience real innate joy. Clearly, there is a missing link somewhere in the existing education system if children are continually being deprived of experiencing these basic fundamental emotions. Fortunately, her seeking spirit remains unbroken.

As a professional physiotherapist, May has had the privilege to help people return to optimal physical health. What has been remarkable from her years of clinical experience is that she has witnessed time and time again that, physical ailments cannot be healed just by physical means alone. As her body is the most intriguing machine in the whole universe, technology alone cannot and will not heal people ... although it can definitely mend a robot!

People must understand that the physical body and mind alone are not them, they are only part of them. It is important to continuously nurture and explore the unlimited potential of people’s own universe from within in order to have a sustainable and stable platform for people to enjoy their unique and exuberant life.

Striving to search the meaning of people’s own life is an important and a continuous process, sharpening the intellectual faculty alone will not achieve that goal. The rat race of developing intellectual ability has pushed them into a world of individualism instead of embracing a global identity.

**Lee Wai Man,  
Roger**

**Brain Infinity Neurofeedback  
Founder**

## To Study, To Practice, To Contribute

Mr. Lee Wai Man, Roger, is the founder of Brain Infinity Centre Limited. He has been making contributions in the mental health field to help children with autism in Hong Kong. Like most parents with an autistic kid, they found no way out all about their child, although years of effort paid for the standardized interventions. The diagnosis did not shed light on any possibilities of different kinds of etiology. The disruptive behaviors and temper tantrums remained unchanged.

In 2013, Mr. Lee heard about neurofeedback serendipitously. He identified many testimonials from parents across different counties, unveiling their autistic kids' remarkable improvement after neurofeedback treatment. Then, Mr. Lee located a clinic and fledged to Singapore with his 10-year-old son for the first neurofeedback assessment. Shortly afterward, he decided to turn his career path to a mental health professional to help other families with autistic kids in Hong Kong.

Having the mindset of pure science developed in undergraduate education, Mr. Lee got through the math behind brainwaves that were indispensable to neurofeedback. He was fortunate to be mentored, one-on-one and laterally, by a few professionals in the field, for which these existences turned into an essential milestone in his journey. In parallel, he earned a master's degree in Mental Health Psychology from the University of Liverpool. Reading literature, books, and studying neuroscience have become habituated in his daily practice. All the knowledge disseminated by the many heroes in his mind enlightens him to the extent that he can keep the endeavor moving on.

Knowing that every child is unique, Mr. Lee integrates the cross-disciplinary knowledge based on neurological, psychological, and psychosocial dimensions to look into all the cases. He utilizes advanced neurofeedback technology to rectify the unhealthy brain mechanism of the kids. Over time, the positive outcomes demonstrate the feasibility of alleviating autistic symptoms, possibly regaining the kids' brain functions, and ultimately improving the quality of life of families.

Alongside the unprecedented and transformative progress of many complex and challenging cases, Mr. Lee grows into a person having a particular proclivity for neurofeedback. In past years, he provided services at affordable costs and supported some families from the low socioeconomic group in Hong Kong. In other words, Mr. Lee makes the intervention available for many families in Hong Kong under the extreme scarcity of neuropractitioners who can do this.
